L.S.1

June 8, 1909.

Mr. Victor D. Brenner,
114 East 28th Street,
New York.

Dear Mr. Brenner:-

This Society contemplates holding a public exhibition of coins and medals in the fall or early winter.

At a meeting of the Council, on the 5th instant, a committee was appointed, to secure, for this exhibition, by loan or donation, large sculptor's plaques of inventive or artistic medals.

The committee is composed of Mr. Edward D. Bullock, 1063 Madison Avenue, Chairman, Messrs. Calvin Bergman, Victor D. Brenner, Edward B. Adams and George H. Sumo.

Trusting that this will be agreeable to you,

I am, believe me,

Very sincerely yours

Secretary.

Dear Mr. Brenner:

Your letter of April 7th, regarding the request of Mr. Tansley to have a replica made of the large plaque of the John Paul Jones medal, for the Republican Club of New York, has been brought before the Council of this Society.

After giving the matter careful consideration, the Council has decided that, in justice to the members of the Society who subscribed to the medal, under the Society's guarantee as to the number of medals to be issued, it would not be well to allow such a replica to be made.

We also feel that to accede to such a request would be to establish a precedent which might cause us considerable trouble later, should other organizations make similar requests.

Regretting that we are unable to accommodate the Republican Club, and with kind regards to you, I am believe me,

Dear Mr. Brenner:-

I received from you a box containing the following Coins and Medals:-

Bronze, obverse and reverse. Medal of the International Congress on Tuberculosis 1908 - by Victor D. Brenner.

Bronze, obverse. Desmond Fitzgerald Medal 1910 - by Victor D. Brenner.

Bronze, obverse and reverse. Engineering Society Medal 1907 - by Victor D. Brenner.

Bronze, obverse and reverse. Medal for the 250th Wedding Anniversary of William and Mary Dyckman. August 1, 1912 - by Victor D. Brenner.

As you sent no word with these, I am a little in doubt as to whether they are intended as a donation to the Society, or simply deposited here for safe keeping, and I would be greatly obliged if you would inform me as to this, so that the proper entry can be made in our books.

Mr. Victor D. Brenner,

New York.

My dear Mr. Brenner:-

I have your letter of April 11th proposing Mr. Edward Holbrook for membership in this Society.

Do you want to propose Mr. Holbrook for membership or associate membership ? The annual dues of members are fifteen dollars, and of associate members five dollars, and the standing is just the same except that the associate members do not have the right to vote at business meetings, though it is customary to invite them to all meetings. As you are probably aware our membership list is limited, and we have to have a vacancy before we can elect a new member, while the list of associate members is unlimited, and we can elect as many as we please at any time.

There will be a meeting of the Council on Saturday afternoon, and if it is desired we can elect Mr. Holbrook an associate member at that time. If, however, he prefers to be a full member I will present his name, and we will act on it as soon as we can do so, or else we can elect him an associate member now and transfer him to full membership when we have a vacancy in our list, and if I do not hear from you to the contrary I will present his name for associate member on Saturday.

I have been trying for sometime to get time to drop in to see you. Mr. Saltus tells me that you have been making a lot of interesting things lately.

With kind regards, believe me,

Very sincerely yours,

Secretary.

VICTOR DAVID BRENNER

Dear Mr. Brenner

My dear Mr. Brenner:-

I enclose an article which appeared in the Sun sometime ago regarding Presidential medals and other things, and which contains a statement regarding the Lincoln [illegible], which is certainly rather new to all of us.

It is surprising how beautifully some people get mixed up as soon as they begin to write about anything relating to numismatics.

With kindest regards, and hoping that you will have time to pay us a visit up here sometime before long, I am,

Very sincerely yours,

April 8,1914.

Mr. Victor D. Brenner

My dear Mr. Brenner:-

We are now puting in type for the American Journal of Numismatics, Dr. Comparette's article on the Medallic Work of 1913.

I have a letter from Dr. Comparette in which he says that he asked you to give us more extended information about the church medal with Sir Galahead on it. What was the inscription and design, and also the size and shape? He also asks whether the medal by you of George Bailey Hanson should be included in your work for 1913, and if so, any facts of interest regarding this medal. We have so far only listed under your name the John Way medal, and if there are others that are left out, we would be glad to know it.

Dear Mr. Brenner:-

Your letter of June 18th came duly to hand.

Your article regarding Roty was published on pages 162, 163 and 164 of volume 48, number III of the American Journal of Numismatics. In the same number was the first installment of the paper on Roty by Dr. Kunz. That is, that portion of the same [illegible] in the possession of the Society.

The idea was to, in a later number, publish all [illegible] the article including description of medals. [illegible] in preparation. There were many unavoidable delays in the completion of Dr. Kunz's article, and before he had it ready to publish, [illegible] had elapsed since the publication of the first part of it. [illegible] was [illegible] the remainder of the article as a continuation of what had already been published, especially as the form of publication had been changed to annual instead of quarterly. The Publication Committee therefore decided to publish in this number, the entire article including the two or three plates that had already been published in 1911, and I believe it. [illegible] in this case. Especially this article, as it appears in the present number, is really supplemental to that which took place at that meeting of the Society.

To have republished [illegible] would have simply been to repeat the publication of a paper that was already [illegible] in the same form in a former volume of the same publication.

I had nothing to do with the [illegible] volume of the Journal, but the same [illegible] which I trust will explain it [illegible].

[illegible] you answers. Every, and hopin[illegible]

My dear Mr. Moe:

I have sent you, under separate cover, a copy of this week's issue of the Survey, containing the illustrations of the medals and a little social interpretation of them.

Is Mr. Beech's Peace Medal photographed or very nearly ready for photographing, and may we not have a photograph as early as possible? We do not want to steal any of your thunder, but would very much like to have our plate ready so that we could run it immediately after the Peace is signed.

You see, I too have the "Abiding Faith" and as we are a Weekly, it ought to be printed as near the time of the event as possible. Of course, this is assuming that it will not in any way conflict with your announcement or publication of the medal.

I am leaving for Boston to be gone ten days. If you can send us the photograph at once, will you be good enough to send it to Mr. Arthur P. Kellogg, at this address?

Dear Mrs. Brenner,

I regret that illness in our clerical force has prevented my replying to your note of the 2nd before now.

We received the copies of the Survey with the illustrations of the "Peace Medals", and I think they show up very well indeed.

I am sorry I cannot yet send you the reproduction of Mr. Beach's "Peace Medal"; you know we are not going to issue it until the signing of the treaty is announced. In consequence, unless there is a change of position on the part of the Publication of Medals Committee, I shall not be able to release photographs of the "Peace" before that time. I will, however, make sure that you receive the photograph as soon as anyone else.

I thank you for your interest and desire to forwardsthe success of this medal.

I have been promising myself the pleasure of calling upon you for some time but my duties have prevented.

We have just come across a package of the proofs of your John Paul Jones Medal, like the copy enclosed. We cannot think of any use to which we can put these plates, but it occurred to me that perhaps you might care to have them to use as specimens to illustrate your work. If you desire to have them, I will bring them to you - if possible, next week.

I want to ask your opinion about a matter relating to dies in connection with some of the early Greek coins; and if you would tell me a time that would not interfere with your other work, I should be glad to call then if possible.

With regard to your question about the amount available for purchases in the Medico Fund, I am unable to give this because it varies with the year. After the expenditure of expense in connection with the medal have been made, the balance can be used as I indicated to you. This is the reason I asked you to give me a list of your things which we did not have or which you would like to see here together with the prices for them. Dear Mr. Brenner:

Was the model for either of your Lincoln medals made in an enlarged form and then reduced? My reason for asking is that we are endeavoring to strengthen our exhibition material by procuring casts of medals in the full size of the artist's model and having them framed for the walls. If either of your Lincoln casts were modelled and then reduced, I should like to take up with you the question of having the casts made in the original size. If neither of them were so modelled, have you anything that was modelled in enlarged form?

My dear Mrs. Brenner:

It is with great regret that the Council of the American Numismatic Society has learned of the death of Mr. Victor D. Brenner. For thirty years Mr. Brenner was one of the foremost members of our Society. He stood at the very head of his profession, and it will always be a great satisfaction to us that no less than five of our most important medals should have come from his hands.

In 1922, the J. Sanford Saltus Medal, for artistic achievement in the field of the medal, was bestowed on Mr. Brenner. In thus placing his name among the distinguished medallists of our Society, we have but honored ourselves.

The Council has, therefore, requested that I express to you, on the behalf of the Society, the great sorrow that we all feel in the loss of our honored member, and to extend to you our deepest sympathy in your sad bereavement.

Very respectfully yours,

President
